The album *Parallel Lines*, by Blondie, released more than 40 years ago, still has that alluring grip on the dance floor whenever it gets played. You see, when you do something well, it holds its value and vary rarely will ever go out of style or fashion. Just like our Blondie design. Inspired by the album, it's a bold celebration with horizontal / parallel lines on the façade.

The front window is an architectural statement that complements the clean lines and modern materials. This elevation would definitely get you turning back for a second look in passing.
